INTRODUCTORY NOTE

1. As a step toward assisting the readers to make the maximum use of its resources, the Library has undertaken to issue in several parts a list of periodicals and certain serials it currently receives.* Each part will be devoted to a broad subject area. This sixth part in the projected series lists periodicals dealing with science and technology. Periodicals issued by United Nations and other agencies in the United Nations system are not listed.

2. Arrangement

Periodicals are listed alphabetically by their latest title. However, if a periodical or serial is issued by a government agency, it is entered under the name of that agency. Similarly, if a title consists of a single generic word such as bulletin (boletín, boletin), journal, review (revue, rivista) etc., it is entered under the name of the issuing organization. A reference is made in all such cases from the title to the name of the issuing organization. Titles in Japanese are listed at the end of the alphabet.

3. Bibliographic Data

Bibliographic data which are provided for each title include the place of publication, the frequency of issuance (see list of abbreviations) and the volume number and/or the year of the beginning of the Library's holdings. In the case of periodicals which are not retained indefinitely, the number of years for which the title is kept is shown rather than the volume number and/or the year of the beginning of the Library's holdings. Appropriate information is provided in a note when a periodical contains text in more than one language, or is issued in different language editions, etc.

*They supersede the List of periodicals and newspapers received, March 1957 (ST/LIB/SER.B/7).

NOTE LIMINAIRE

1. Pour aider le lecteur à tirer le meilleur parti des possibilités qu'elle offre, la bibliothèque a entrepris de publier en plusieurs parties une liste de périodiques et de certaines publications de série qu'elle reçoit régulièrement.* Chaque partie sera consacrée à un sujet d'ensemble. La sixième partie de la série donnera une liste des périodiques spécialisés dans le domaine des sciences et techniques. Les périodiques publiés par l'ONU et d'autres organismes des Nations Unies ne sont pas mentionnés.

2. Disposition matérielle

Les périodiques sont classés dans l'ordre alphabétique de leur titre le plus récent. Toutefois, lorsque des périodiques ou des publications de série sont édités par un organisme gouvernemental, ils sont classés sous le nom de cet organisme. De même, lorsqu'un titre ne comprend qu'un seul mot générique tel que Bulletin (boletín, boletin), Journal, review (revue, rivista), etc., il est classé sous le nom de l'organisation éditrice. Dans tous les cas de ce genre, le lecteur est renvoyé du titre de la publication au nom de l'organisation éditrice. Les titres en japonais sont classés à la suite de l'alphabet.

3. Renseignements bibliographiques

Les renseignements bibliographiques fournis pour chaque publication comprennent le lieu d'édition, la périodicité (voir liste des abréviations), le numéro du volume et l'année du début de la collection de la bibliothèque. Dans le cas des périodiques qui ne sont pas conservés indéfiniment, c'est le nombre d'année pendant lesquelles les publications sont conservées qui est indiqué, au lieu du numéro du volume ou de l'année du début de la

*Cette liste remplace la List of periodicals and newspapers received, March 1957 (ST/LIB/SER.B/7).

4. Loan and Circulation

Location of the periodicals is shown by the call number or the notation "Unclass." at the beginning of each entry. All periodicals which have either "X" or "Unclass." as part of their call number are located in the periodical stacks and may be obtained from Room L-1B-10, extension 850. Periodicals or serials which have a UDC call number (e.g. 350(058)A61) are located in the main stacks and may be obtained from the Loan Desk, Room L-105, extension 2695. Periodicals or serials whose call number includes the prefix "Ref" are part of the Reference Collection and may not be borrowed. They may be consulted in the Reading Room (L-105) and may be obtained for that purpose from the reference librarians (extension 502). Staff members may also arrange for any periodical to be circulated to them. Requests for circulation should be directed to the Chief, Stack and Loan Section, Room L-1054, extension 2573.

5. Indexes

The list is provided with a subject index and a country of publication index. Both the indexes refer to the serial numbers of the entries in the main part of the list.

6. Supplements

The lists will be kept up to date by issuing supplements at appropriate intervals.

7. Comments and suggestions for improvements of the periodicals collection would be appreciated and should be addressed to the Director of the Library.

collection. Lorsqu'un périodique est rédigé en plusieurs langues ou est publié en plusieurs éditions de langue différente, etc., une note le mentionne.

4. Prêt et circulation

La place d'un périodique donné est indiquée par la cote topographique ou la mention "Unclass." au début de chaque note. Tous les périodiques ayant les mentions "X" ou "Unclass." faisant partie intégrante de leur cote se trouvent à la Salle des périodiques de la Bibliothèque principale et peuvent être demandés au bureau L-1B-10, poste 850. Les périodiques ou publications en série ayant la cote de la classification universelle décimale (U.e. 350(058)A61) se trouvent aux magasins de la Bibliothèque principale et peuvent être demandés au Bureau de prêts, bureau L-105, poste 2695. Lorsque la cote topographique comprend le préfixe "Ref", le périodique fait partie de la collection des ouvrages de référence. De tels ouvrages ne peuvent être empruntés mais peuvent être consultés sur place dans la Salle de lecture (L-105). Pour telle consultation, toutes demandes doivent être adressées aux bibliothécaires du Service de référence (poste 502). Les membres du personnel peuvent également demander à ce qu'on leur fasse le service de tel ou tel périodique. Ces demandes doivent être adressées au chef de la Section des magasins et du prêt, Bureau L-1054, poste 2573.

5. Index

La liste est accompagnée d'un index des matières et d'un index des pays d'édition. Ces deux index renvoient aux numéros d'ordre des notices dans la partie principale de la liste.

6. Suppléments

Les listes seront tenues à jour au moyen de suppléments qui paraîtront de temps en temps.

7. Les lecteurs qui auraient des remarques ou des suggestions à formuler en vue d'améliorer la collection des périodiques sont cordialement invités à les adresser au Directeur de la Bibliothèque.
